

# Bringing **new** dimensions to film production

## Panasonic's AG-AF100 Micro Four Thirds Professional HD Video Camera Recorder and Pre-NAB Announcements

Panasonic's AG-AF100 is the world's first<sup>1</sup> professional HD camera recorder with a Micro Four Thirds mount<sup>2</sup>. It produces an exquisite film-like shallow depth of field and is able to be used with a wide range of lenses, including cinema lenses.

Join us for a chance to get an up-close look at Panasonic's new technology and be the first in Canada to hear about our exciting pre-NAB announcements.
